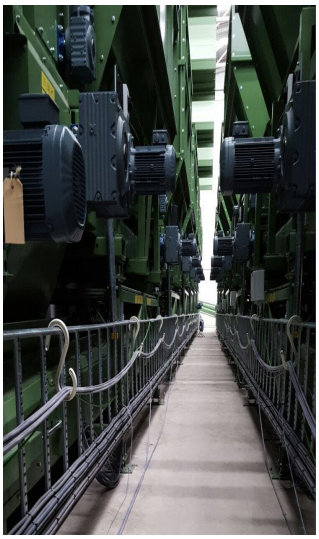
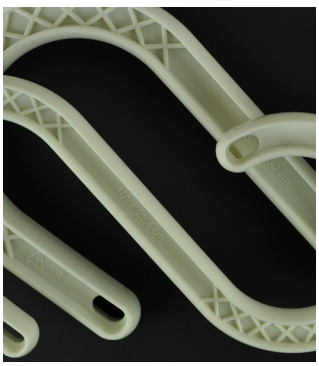
SIMONA Dutchclamp



DUTCHHOOK

The Dutchhook has been specifically developed for the safe and organized suspension of cables and conduits on construction sites and in industrial environments. By keeping cables off the ground, the Dutchhook significantly reduces the risk of tripping and other workplace-related accidents, contributing to a cleaner, safer, and more efficient work environment.

The Dutchhook is available in two sizes.



DUTCHHOOK		
Type	**10”**	**13”**
